

## HUBBELL INTRODUCES IDEVICES

- WiFi & Bluetooth compatible product line - no hub necessary
- Free iDevices Connected app available on iOS and Android devices
- Smooth in-app setup & patented pull out tab for easy HomeKit pairing
- Over-the-air updates ensure products are always current

## Wi-Fi® Enabled Dimmer Switch

- The iDevices® Dimmer Switch allows you to control and dim lighting anywhere in your home with your iOS or Android™ device and the free iDevices Connected app.
- Customize dimming range to prevent low-level bulb flicker and make subtle brightness adjustments with the power of your voice through Siri®, Alexa or the Google Assistant.
- With intelligent features like brightness memory and a sleek, integrated design, the iDevices Dimmer Switch will transform any house into a smart home.

## Wi-Fi® Enabled Dual Control Wall Outlet

- Take your smart home to the next level with the iDevices Wall Outlet - the only Wi-Fi® enabled in-wall outlet featuring HomeKit™, Alexa and the Google Assistant compatibility.
- With intelligent features such as individual outlet control and energy monitoring, iDevices Wall Outlet provides powerful functionality anywhere in your home without the need for a central hub or gateway.
- Conveniently control and schedule the iDevices Wall Outlet from anywhere using the power of your voice through Siri®, Alexa and the Google Assistant.

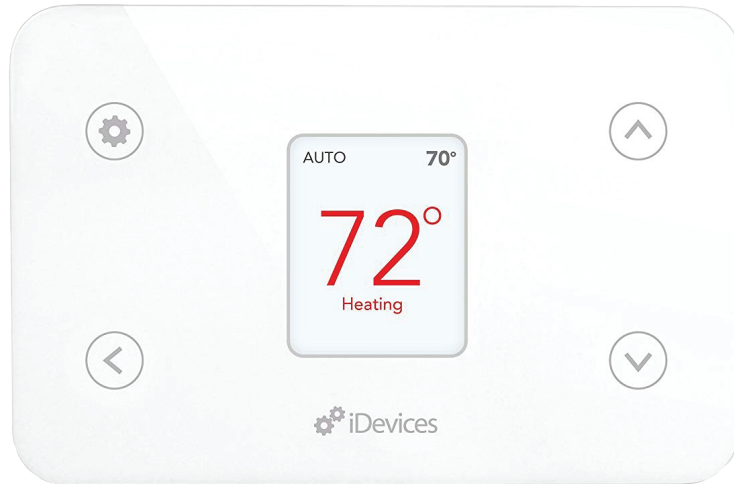

## Wi-Fi® Enabled Wall Switch

- This Wi-Fi®-enabled smart switch allows for single pole setup, or use multiple Wall Switches for 3- and 4- way functionality, providing unparalleled flexibility anywhere in your home.
- Conveniently schedule and operate lighting, ceiling fans and more with remote access and voice control through Siri®, Alexa and the Google Assistant.

## Wi-Fi® Connected Thermostat

- Use dynamic scheduling to save money on energy costs and improve your home's efficiency.
- The iDevices Thermostat is compatible with most heating and cooling systems and is designed to fit the aesthetics of any home with its standard size, shape and modern look.

## Thermostat Wire Adapter

- The Thermostat Wire Adapter adds the function of a Common wire to your existing system with minimal effort and can get you up and running with the iDevices Thermostat in no time!
- The Thermostat Wire Adapter can also be used to add another wire if additional wiring cannot be run.
- The iDevices Wire Adapter will work with most 24VAC HVAC systems with at least three physical wires running to the thermostat.

## Instant Switch

- Pair the Instant Switch with a compatible iDevices® product to create a wireless wall switch virtually anywhere in your home.
- Without the need to run wires, Instant Switch adds flexibility to your entire living space.
- The Instant Switch also features dimming capabilities when paired with the iDevices Socket or Dimmer Switch, giving you the freedom to create the perfect ambiance.
